EDUCATION

Watford Grammar School for Boys

Sep 18–Jul 20

A levels: Economics (A*), Mathematics (A), Computer Science (B) – predicted

GCSE's: 10 A*-B

Sep 16–Jul 18

Personal Profile:

An enthusiastic individual who thrives in new environments and is keen to learn new skills to broaden their skillset. Someone who possesses excellent interpersonal skills and can communicate effectively to people in various positions. A person who has an enhanced level of lateral thinking and is highly effective at uncovering peoples' needs and providing the most efficient solutions even whilst under pressure. Finally, someone who is also highly passionate about technology and always stays up-to-date with the latest trends to sharpen their technological aptitude.

EXPERIENCE

MICROSOFT | Work experience

Aug 19

- Developed interpersonal skills through establishing a strong rapport with my peers, questioning to identify individual strengths and weaknesses, ensuring everyone was adequately equipped for their role.
- Adapted to be able to work under pressure by remaining calm in an ever-changing environment, whilst still ensuring the objectives were met.
- Enhanced my leadership skills as well as my self-confidence as I was responsible for managing roles and presenting our results in front of an unknown audience.

BNP PARIBUS | Investment Bank

Feb 19

- Reinforced my problem-solving skills as I learnt to approach scenarios in creative ways.
- Complemented my networking skills by talking to various individuals from different fields and learning the impacts that technology had on their work.

BOOTS | Pharmacy Work Experience

Jun 18

- Assigned an active role which further bettered my communication skills as I found myself freely conversing with customers in order to ensure that they had a flawless experience.
- Guiding elderly and disadvantaged people through their visit to the store augmented my social skills as I was interacting with people from various backgrounds.

Peace Hospice | Volunteered

Aug 18

- Working and helping with the elderly enhanced my communication skills and increased my awareness of different disabilities.
- Also learnt resilience and patience whilst treating elderly people which I believe is a quality that is extremely useful for retail roles where there is a vast range of customers.

Centre for spiritually and cultural advancement | Volunteering

- Volunteering at the Centre for spiritually and cultural advancement in London every month provides me with a sense of fulfilment as giving back to the community is something I always aspire to do.
- Tasks such as organising a fundraiser require responsibility and ensure my time management skills are impeccable.

ACHIEVEMENTS

- Proficient in Apple Swift Code.
- Fluent in Python and developed a basic booking system for barbershops with the use of Tkinter and SQLite (School Project).
- Deep understanding of Social Media Marketing after earning a certification on Udemy.
- Installation and configuration of Macintosh and Windows operating systems.
- Fluent in iWork and MS Office.
- Ability to code in HTML, CSS and JavaScript – created my first website in 2012 – <http://jawad.azurewebsites.net/>
- Basic French and Spanish
- Fluent in English, Urdu and Punjabi

EXTRACURRICULAR ACTIVITIES

iOS App Development:

- Currently, I am working on a GCSE/A-Level revision app to work with iOS and iPadOS. This has involved me bringing out my creative side when it came to designing the storyboards in Adobe XD.
- I have been self-teaching through the aid of YouTube tutorials and have managed to develop the basic foundation of the app which is the welcome and login screens.

NCS:

- I greatly developed crucial skills such as: my ability to work in a team of people and being able to successfully manage them being project leader, I also learnt how to perform basic first aid.

Boxing:

- My passion outside of a working environment is boxing. This helps me to de-stress and take my mind away from work and education.
- Boxing instils strength, self-confidence and motivation for me to succeed in my future career.

Computing Club

- Creating a club for young people within school, benefits me and the other individuals simultaneously due to the knowledge being gained just from participating in small programming activities.
- Stimulates my desire to study computer science as it gives me the opportunity to showcase my knowledge.

Student Investor

- Created a sense of competitiveness and ambition when trading in the real world.
- Gained useful information on the financial services that take part every day in this complex economy.
